INTRODUCTION

MICROLOG is an index and document delivery system providing access to current Canadian report literature of reference value from federal, provincial, and municipal government and institutional sources.

The MICROLOG Index is a monthly publication providing citations to all reports located by our editorial staff.

The document delivery service supplies most of these documents to subscribers on either microfiche or paper. Titles available on fiche are indicated in the Index by a MICROLOG number. Xerographic paper copy is available unless otherwise noted.

PUBLICATIONS INCLUDED

MICROLOG includes Canadian federal, provincial and local government publications. Also included are publications of selected non-government research institutions, professional associations and special interest groups.

The primary criterion for inclusion is reference value; therefore research papers and studies are cited, while news releases and general information pieces are not. Annual reports, statistical reviews and financial statements are the only serials appearing in the Index.

MICROFICHE SUBSCRIPTIONS AVAILABLE

Documents from MICROLOG are available on microfiche through various subscription plans ranging from the complete collection to subsets by level of government, geographic area or subject. The microfiche collections are listed on the microfiche entitled "Microfiche Collections / Collections de microfiche" which accompany each subscription.

USING THE MICROLOG INDEX

The MICROLOG index is divided into four parts: Main Entry Section, Title Section, Subject Section, and Microfiche Collections. The Index is bilingual.

MAIN ENTRY SECTION

This section lists all publications by main entry according to AACR2 rules with modifications required for a concise, easy-to-use index. Added entries for individual and corporate authors and for series are included.

TITLE SECTION

For additional points of access most documents are listed by title and by series title with main entries in parentheses.

SUBJECT SECTION

All documents in the Main Entry Section are analysed in this section. Items are listed under subjects by title and main entries are noted in parentheses for easy reference to the main entry section.

MICROLOG est un index et un système de livraison de documents donnant accès aux rapports canadiens courants, provenant de sources gouvernementales et institutionnelles, et ayant une valeur et tant que référence.

L'index MICROLOG est une publication mensuelle mentionnant tous les rapports trouvés par notre personnel de rédaction.

Le service de livraison de documents fournit aux abonnés un grand nombre de ces documents sur microfiche et sur papier. Les titres qui sont disponibles sur microfiche sont indiqués dans l'index grâce à un numéro d'entrée de document. Une copie xérographique sur papier est disponible sauf s'il est autrement indiqué.

PUBLICATIONS TRAITEES

MICROLOG inclut les publications du gouvernement fédéral canadien, des gouvernements provinciaux et des administrations municipales. Il traite également les publications sélectionnées des institutions de recherche non-gouvernementales, des associations professionelles et des groupes d'intérêt particulier.

Le critère principal de l'inclusion est la valeur en tant que référence; ainsi, les articles et les études de recherche y figurent, tandis que les communiqués et la documentation d'intérêt général n'y figurent pas. Les rapports annuels, les périodiques de statistiques et les états financiers sont les seules publications périodiques qui figurent dans l'index.

ABONNEMENTS AUX MICROFICHES

Les documents de MICROLOG sont disponibles sur microfiche, et ceci, selon de divers programmes d'abonnement, de l'abonnement à la collection complète aux abonnements partiels par gouvernement, par région géographique et par matière. Les collections sur microfiche sont comprises sur la microfiche intitulée "Microfiche Collections / Collections de microfiche" qui fait partie de chaque abonnement.

UTILISATION DE L'INDEX MICROLOG

L'index MICROLOG se divise en quatre parties, la Section des inscriptions principales, la Section des titres, la Section des matières, et Collections de microfiche. L'index est bilingue.

SECTION DES INSCRIPTIONS PRINCIPALES

Cette section énumère toutes les publications par entrée principale, selon les règles de RCAA2 modifiées pour produire un index concis et facile à utiliser. Elle comprend des entrées supplémentaires pour les auteurs particuliers, les collectivités-auteurs et les séries.

SECTION DES TITRES

Afin d'être plus accessible, la plupart des documents se présentent par titre et par série. Les inscriptions principales sont mentionées entres parenthèses.

SECTION DES MATIERES

Tous les documents traités dans la section des inscriptions principales sont analysés dans la section des matières. Les items se classent selon les matières et par titre; les inscriptions principales sont mentionées entre parenthèses.

All microfilmed documents in this Index are available by individual order.

Xerographic paper copy or Microfiche copy

Prepayment or Deposit Accounts preferred. For quotes or other information, please contact the Document Delivery Centre, Micromedia Limited, 144 Front Street West, Toronto, Ontario, M5J 2L7 Telephone: (416) 593-5211

Tous les documents sur microfiche traités dans cet Index sont disponibles sur commande individuelle.

Copie xérographique sur papier ou Copie sur microfiche

Nous préférons les paiements d'avance ou sur votre compte-dépôt. Veuillez contacter le Service de livraison des documents pour de plus amples renseignements ou pour une cotation: Micromedia Limited, 144 Front Street West, Toronto, Ontario, M5J 2L7 Téléphonez: (416) 593-5211.
